

DEEP DIVE INTO TYPE 2 DIABETES

OVERVIEW

In this lesson, students will begin by looking at the science behind type 2 diabetes. Students will discover how type 2 diabetes develops and what may be done to help reduce the risk of this noncommunicable disease. Students will then take the information they learned and create an infographic about noncommunicable diseases, type 2 diabetes, and positive health choices that can help reduce the risk of developing type 2 diabetes.

USE OF PRESENTATION

The accompanying presentation was created with PowerPoint so that it can be used in a variety of classrooms. If you are using a laptop with an LCD projector, simply progress through the PowerPoint by clicking to advance. All of the interactive aspects of the presentation are set to occur on click. This includes images, text boxes, and links which will appear in a web browser upon clicking. If you are using an interactive whiteboard, tap on each slide with your finger or stylus to activate the interactive aspects of the presentation. In the notes for each slide, there will be information on how to proceed.

CONTENT AREAS

Health, Physical Education

ACTIVITY DURATION

45–60 minutes

AGE RANGE

10–13

ESSENTIAL QUESTIONS

- How does a person acquire a noncommunicable disease?
